

## **N574 SPRING DEVELOPMENT**

- ☐ A Vendor Input/ACH-EFT Application must be completed before a contract may be created. This form allows a 1099-G to be submitted to you at the end of the year. It also allows for your reimbursement to be sent to your account electronically once your project is completed.
- ☐ Practice applies where livestock have free access to a spring or seep and the development will provide a dependable supply of suitable water for distribution.
- ☐ Cost share is authorized for pipe and trenching, from the collection point to the distribution point including the outlet, not to exceed 300 feet. Cost share is also authorized for one distribution point and exclusion fence.
- ☐ Cost share is not authorized for pumps or similar devices used for the distribution of water.
- ☐ The maintenance life of the practice is 10 years.
- ☐ I certify that I have not started the practice. I understand that if I begin the practice before I receive official notification of approval from the district board I am not eligible to receive cost-share assistance for completing the practice.
- ☐ I understand that the district board of supervisors must approve any modification in the design of the practice. Failure on my part to request changes and obtain board approval of the changes may jeopardize my cost-share payment for the practice.
- ☐ I understand that I am not eligible to receive payment for installing the practice until it meets NRCS Standards and Specifications within Commission policy.
- ☐ Once claim has been signed and approved it will take approximately 4-6 weeks before the reimbursement is issued to your account.

***I have read the above cost share policies and procedures and understand them. I assume full responsibility for all expenses incurred if I fail to follow these policies and procedure.***
